

Nicolas BISAGA

As a student pursuing a Bachelor's degree in Computer Science (Bac+3), I am gradually specializing in cybersecurity. I am seeking a 2- to 4-month internship (starting on April 13, 2026) in the field of cybersecurity or system and network administration in order to validate my third year of study.

Profile and Contact

- Born on May 20, 2002 (23 years old)
- French-Luxembourgish
- Driver's license and vehicle
- +33 6 12 18 44 85
- nicolas.bisaga@gmail.com
- <https://nicolasbisaga.com>
- www.linkedin.com/in/nicolasbisaga

Hard skills

- **Cybersecurity:** log management (SIEM), intrusion detection, system & network security
- **Current training:** TryHackMe (hands-on labs), Linux scripts (bash), OSI model, networks
- **Splunk (SIEM):** learning to collect, analyze, and correlate events
- **Preparing for CompTIA Security+ certification**
- **System administration:** Debian, Apache2, MySQL, DNS (Cloudflare), VPS
- **Programming:** Java (JavaFX, MVC), SQL, HTML/CSS/PHP, C, C++, Python
- Tools: VSCode, IntelliJ, XAMPP, PHPMyAdmin, FileZilla [...]

Soft skills

- Organization
- Curiosity
- Rigor
- Analysis

Languages

- French, native speaker
- English, level B2 (technical and conversational)

Center of Interest

- Cybersecurity & IT
- Hiking & physical activities
- Cooking & nutrition
- Finance

Training courses

2023-2026

Bachelor's Degree in Computer Science (BAC +3), UFR MIM Metz, University of Lorraine - In the process of obtaining

2020-2023

Bachelor's degree in Law, Economics, Management, specializing in Economic and Social Administration (BAC +3), IAE Nancy, University of Lorraine (validated)

2013-2020

Bachelor's degree in science, La Providence Thionville - Summa cum laude

IT Projects

Dynamic website (HTML/CSS/PHP, Debian VPS)

Development of an interactive resume hosted on a **Debian VPS at OVH (Apache2, PHP, MySQL)**. **Domain management** via Ionos and **HTTPS** via Cloudflare. **Deployment** with VSCode, XAMPP, and FileZilla.

Website : nicolasbisaga.com

Linux Lab & TryHackMe

Cybersecurity experiments: Linux administration, Bash scripts, log analysis, intrusion detection, and network investigations. Practicing SOC scenarios via TryHackMe.

Hangman game (Java/JavaFX)

Graphical interface designed with **Scene Builder**, mockups on draw.io, game logic in **MVC architecture**.

Networked UNO game (Java/JavaFX/SQL)

Client-server development with **JavaFX** interface and **MySQL** database for saving games. Project focused on **software architecture** and **network communication**.
